COUNTY SUPT., ADVISES ABOUT TAKING CHOLASTIC POPULATION.

The blanks for the enumera-
tion of the scholastic population
are in my office.

All clerks of the advisory board
that have been qualified and
whose qualification has been re-
ported, are expected to call for
blanks during first week in July.
Remember that July is the
month the law sets aside in which
this work is to be done.

You are not expected to go to
some store, or black-smith's
shop, and there take the schol-
astic population. The law re-
quires that you take the census
carefully and accurately, so go
into each and every house.

In visiting the schools last fall
I listed the number of pupils en-
rolled by each teacher. I found in
some districts several more pu-
pils enrolled than the enumera-
tion sheets showed. Now this is
a loss to the county. I had made
my annual report to State Super-
intendent, and this deficiency
could not be remedied. The
more children, the more money
we get from the state. We don't
want any guessing nor any padd-
ing, but we do want all of school
age.

Most respectfully,
W. L. Dixon, Co. Supt.
